

The Government Funding Planners™

The **Mentor Works Proactive Funding Approach™** is unique: we not only identify programs and build a **Proactive Funding Plan™**; our team completes and guides our clients through the application process, reducing a businesses' time commitment by up to 95%. We can stack programs and align funding timelines with your company's initiatives to maximize your funding potential.

We support over 50 active funding programs with a success rate exceeding 90%. These programs are grouped into four categories of funding to clearly identify the ideal programs for your upcoming projects and strategic initiatives.

Find Canadian Government Funding for:

Hiring & Training

Grants supporting up to 50-83% of expenses

Research & Development

Grants and repayable funding supporting up to 50-80% of expenses

www.mentorworks.ca/funding

Business Expansion & Exporting

Grants and repayable funding supporting up to 10-50% of expenses

Capital & Technology Adoption

Grants and repayable funding supporting up to 15-50% of expenses

Succeed with Government Funding

Mature, growth-oriented businesses understand the value of implementing and operating by a strategic plan. Mentor Works' unique approach to government funding is the ability work with your management team to create a customized funding plan matching strategic projects to government funding programs.

Businesses who develop a funding plan apply for more government incentives, have a higher success rate, and ultimately receive more funding for their projects than businesses who do not have a funding plan.

The Proactive Funding Approach™

Identify your strategic priorities, projects, and expenses

Strategize a Proactive Funding Plan to maximize your funding potential

Simplify the funding process, reimbursement, and stacking opportunities

Educate you on additional funding opportunities to maximize cash flow
